

2022 - 2024

School Improvement Plan Summary

Murray Bridge High School

Site Number: 0785

Goals	Targets	Challenge of Practice	Success Criteria
Improve every student's ability to communicate their learning	2022: 90% of Year 7 and 8 students achieve a Grade Point Average (GPA) of 7 or greater	If each teacher consistently uses the teaching and learning cycle to explicitly teach the structures, language features and vocabulary of subject specific focus genres we will see an increase in the quality of student writing and oracy to communicate their learning and hence increase in their grades.	We will see students have been supported in all elements of the teaching and learning cycle in the explicit teaching of subject focus genre, when we review individual class unit plans and differentiated task sheets, review samples of students work, and when we conduct classroom walkthrough and observations. We will see each student create quality, cohesive texts with increasing use of subject specific vocabulary and formal language conventions suitable for purpose and audience, when we review samples of students work.
	2023: 90% of Year 8 and 9 students achieve a GPA of 8 or greater All 2022 Year 7 and 8 higher bands students maintain a GPA of 11 or greater		
	2024: 90% of Year 9 and 10 students achieve a GPA of 9 or greater All 2022 Year 7 and 8 higher bands students maintain a GPA of 11 or greater		
Improve middle years student achievement in literacy	2022: 30% of Year 7 and 8 students just below the SEA in 2021 (PAT-R) will achieve the SEA 90% of Year 7 and 8 students in higher band in 2021 (PAT-R) retained	If we explicitly teach decoding and comprehension strategies we will see an increase in students' achievement in reading, particularly in the area of comprehension.	We will see an increase in below SEA students ability to retrieve and interpret explicit information when we analyse this PAT-R strand. We will see an increase in higher bands students ability to reflect and interpret implied information when we analyse this PAT-R strand. We will see each student progress in targeted areas of comprehension by using CARS and STARS pre and post checks at the beginning and end of each term. When we analyse samples of student written tasks each semester we will see that they can use a selection of appropriate text structures and language features for particular purposes and effects and use functional grammar appropriately.
	2023: 60% of Year 8 and 9 students just below the SEA in 2021 (PAT-R) will achieve the SEA 90% of Year 8 and 9 students in higher band in 2021 (PAT-R) retained		
	2024: 90% of Year 9 and 10 students just below the SEA in 2021 (PAT-R) will achieve the SEA 90% of Year 9 and 10 students in higher band in 2021 (PAT-R) retained	If we explicitly teach essential language features and use formative check and act strategies before progressing, we will increase students' ability to communicate their understanding.	
Improve middle years student achievement in numeracy	2022: 30% of Year 7 and 8 students just below the SEA in 2021 (PAT-M) will achieve the SEA 90% of Year 7 and 8 students in higher band in 2021 (PAT-M) retained	If we improve how we sequentially teach number sense with a focus on the big ideas in number we will increase student achievement in mathematics, particularly in the number and algebra strands.	We will see each student progress in Big Ideas in Number through progress checks each term. We will see an increase in below SEA students' achievement in number and algebra strand in PAT-M. We will see an increase in higher bands students' achievement in number and algebra strand in PAT-M. We will see each student increase their confidence in attempting mathematical problems when we talk to students about their learning in Maths.
	2023: 60% of Year 8 and 9 students just below the SEA in 2021 (PAT-M) will achieve the SEA 90% of Year 8 and 9 students in higher band in 2021 (PAT-M) retained		
	2024: 90% of Year 9 and 10 students just below the SEA in 2021 (PAT-M) will achieve the SEA 90% of Year 9 and 10 students in higher band in 2021 (PAT-M) retained
